### Organiser's comments:

This was our hardest Canoe O course yet. Several flags were placed deep within thickets and a few were inside moorings and unseen unless you paddled through at precisely the right spot. All paddlers talked about encountering tough challenges but 6 crews still found all controls with Fionn and Don just 1 and 2 short.

HOAA brought 20 – 30 participants and supporters down from Sunderland and I know that they all enjoyed a happy and energetic day out. The event again raised over £100 which will be used to support the next HOAA activity weekend taking place at Brathey Outdoor Centre, Ambleside in 4 weeks time.

HOAA would like to thank the many groups and individuals for their ongoing help and support with this unique event. Provisionally Canoe O will next be held again on 16<sup>th</sup> September, 2023, same time and place. Hope to see you all there.
