5 point penalty for each minute late

Thanks for coming. The posts that were actually missing numbers were 1 and 3, all the others were visible although sometimes slightly obscured by other signs attached. I've been generous in the marking for 8, 16, 17 and 27 where this applied. Number 13 was actually a 10 but there was a sticker over the top number 1 (I tried to remove it but it was stuck fast!), I have accepted 0 as that
