Organiser's comments:

The great thing to see at Canu-O was the wide mix of ages and abilities, from very young to very old, with everyone having a great time on the river. After 5 courses I feel was the best standard for everyone. Nobody said it was too easy or too hard.

I was saddened that my protest against the landowner and the council for taking away our free public access to the river here had to spoil the event for everyone. I did it there and then because I felt the publicity would give us a better chance of being able to hold the event next year. I will not be doing any more protesting myself but hope that younger and more capable people will continue to campaign for free public access to the river here.

I will still be doing everything I can to hold Canu-O in 2024 but from now on in a quiet and more acceptable manner.
